## Schedule of benefits

---

This schedule of benefits lists the **eligible dental services, deductibles, payment percentage**, maximums, and other limits that apply to the services you get under this plan.

### How to read your schedule of benefits

- When we say:
  - “In-network coverage” we mean that you get care from **in-network providers**.
  - “Out-of-network coverage” we mean that you can get care from **out-of-network providers**.
- The **deductibles** and **payment percentage** listed in the schedule of benefits below reflects the **deductibles** and **payment percentage** amounts under your plan.
- You must pay any **deductibles** and your part of the **payment percentage**.
- The **payment percentage** listed in the schedule of benefits reflects the plan **payment percentage**. This is the **payment percentage** amount the plan pays. You are responsible for paying any remaining **payment percentage**.
- You must pay the full amount of any dental care services you get that are not a **covered benefit** or that exceed your **Calendar Year** and **lifetime maximums**.
- This plan also has limits for some **covered benefits**. For example, these could be visit limits. They may be combined limits between or separate limits for **in-network providers** and **out-of-network providers** unless we state otherwise. See later in this schedule of benefits for information about limits.

#### **Important note:**

All **covered benefits** are subject to a **Calendar Year deductible** and **payment percentage** unless otherwise noted in the schedule of benefits below.

The coverage described in this schedule of benefits will be provided under the Customer's group plan. This schedule of benefits replaces any schedule of benefits previously in effect under the plan of benefits. Keep this schedule of benefits with your booklet.

## General coverage provisions

---

This section explains the:

- **Deductibles**
- **Maximums**

### Calendar Year deductible

**Eligible dental services** applied to the out-of-network **deductibles** will be applied to satisfy the in-network **deductibles**. **Eligible dental services** applied to the in-network **deductibles** will be applied to satisfy the out-of-network **deductibles**.

### Individual deductible

You pay for **eligible dental services** each **Calendar Year** before this plan begins to pay. This individual **deductible** applies separately to you and each covered dependent. After the amount paid reaches the individual **deductible**, this plan starts to pay for **eligible dental services** for the rest of the **Calendar Year**.

### Family deductible

You pay for **eligible dental services** each **Calendar Year** before this plan begins to pay. After the amount paid for **eligible dental services** reaches this family **deductible**, this plan starts to pay for **eligible dental services** for the rest of the **Calendar Year**. To satisfy this family **deductible** for the rest of the **Calendar Year**, the combined **eligible dental services** that you and each of your covered dependents incur toward the individual **deductible** must reach this family **deductible** in a **Calendar Year**. When this happens in a **Calendar Year**, the individual **deductibles** for you and your covered dependents are met for the rest of the **Calendar Year**.

### Calendar Year maximum

The most the plan will pay for **eligible dental services** incurred by any one covered person in a **Calendar Year** is called the **Calendar Year maximum**.

This **Calendar Year maximum** applies to in-network and out-of-network **eligible dental services** combined.

### Dental emergency services maximum

The most the plan will pay for **eligible dental services** incurred by any one covered person for any one **dental emergency** is called the **dental emergency services maximum**.

### Specific dental care lifetime maximum

This is the most this plan will pay, after you have paid any **deductible**, for specific dental care treatment expenses incurred by any one covered person during their lifetime for **eligible dental services**.

These specific dental care **lifetime maximums** do not apply to in-network **eligible dental services**. However, specific dental care **lifetime maximums** do apply to out-of-network **eligible dental services**.

Any expenses applied to satisfy a specific dental care **lifetime maximum** will not be applied to satisfy any **lifetime maximum**.

### Your financial responsibility and determination of benefits provisions

Your financial responsibility for the cost of services is based on when the service or supply is provided, not when payment is made. Benefits will be pro-rated to account for treatment that occurs in more than one **Calendar Year**. Determinations regarding when benefits are covered are subject to the terms and conditions of the booklet.
